Purpose

Why Online Retail System?

We designed it to bring everyone into this era of eCommerce, to obtain financial stability.

As we know that Corona has a negative impact on individuals' businesses from its first case of discovery till now having duration from November 2019 till June 2021 is 1.7 years. Which impacting the business, employment of peoples to this condition to provide a way a light to these peoples that they can start earning by selling online. To gain the financial stability and let the worries off.

“Ecommerce isn’t the cherry on the cake, it’s the new cake”

Jean Paul

If we not realize its importance till now, so we will be left behind just like other technologies from western world

“The e-commerce industry is a force that no investor can afford to ignore.”,

Suisse CUSHLA SHERLOCK

Data Base

We used a fastest growing database which will compete the good one is Mongo DB due to its multi features & because it has a ability to handle unstructured data

Mongo DB

- Faster due to unstructured data
- Easy to understand & maintain (no schema).
- Flexibility (multi data types)
- Used to handle big data

From Market / Investors Point of View

Give the profit of 1020% in last five years 1 share value 342\$, while Oracle based MySQL give in last five years only the profit of 105% 1 share value at 81.64%.
